Arosa News – Winter 2023/24

Hotel Postresidenz am See

The Posthotel in Arosa has a long history: the modern hotel with integrated post office was built in 1928 on the initiative of the former PTT. Over the past 100 years, the appearance of the historic Posthotel has changed several times, and since 2021 it has been rebuilt. In a prime location overlooking Lake "Obersee" and the mountains, right next to the gondola and chairlift, the upscale suite hotel will feature a charming restaurant with garden dining, an attractive lobby with bar, and a spacious spa. The hotel is scheduled to open in November 2023.

Rebuilt «KuhBar»

Since the 2017/2018 winter season, the “KuhBar” Arosa has been a temporary structure that had to be set up in October and dismantled in the spring. This era will come to an end with the closure in 2022/23. In the summer and autumn of 2023, Arosa Bergbahnen AG rebuilt the “KuhBar” as a permanent structure. Now that the work has been completed, the focus is on energy sustainability, an attractive appearance, successful interior design and, of course, a feel-good and party atmosphere. Après-ski guests can look forward to some new things this winter, but the new “KuhBar” will also retain its unmistakable status as “the place to be for après-ski”.

Arosa Bear Sanctuary

The Arosa Bear Sanctuary is an experience for young and old. The resident bears, Meimo and Amelia, are the main attraction. The Arosa Bear Sanctuary provides a species-appropriate home for bears rescued from living in poor conditions. Bears who were previously forced to live in a tiny, dirty cage were freed from this awful situation by the animal welfare organisation FOUR PAWS and then brought to Arosa.

The bears can learn their natural behaviours in the heart of the natural mountain landscape with meadows, bushes, rocks, streams and forest. And visitors can watch them doing this.

The Arosa Bear Sanctuary animal protection project is run by the FOUR PAWS animal welfare organisation and the Arosa Bear Foundation.

Experiences at the Arosa Bear Sanctuary

When you visit the bear platform at over 2000m above sea level, you will learn many interesting facts about bears in the exhibition as well as the histories of the bears from Albania. The adventure route with its suspension bridges in the northern enclosure, the bear-themed mini golf, the adventure playground at the middle station, the "Weisshornbär" view point and the Bear Sanctuary experience trail all add to the fun. Then feed your hungry bear family at the Brüdgerstuba restaurant next door.

The Arosa Bear Sanctuary is open every Thursday from 1 p.m. to 4 p.m. The animals spend the winter months in hibernation, but it is still worth a visit. If you are lucky, you will be able to observe the bears hibernating in their outdoor enclosure – a unique spectacle. The animal keepers are always happy to talk about the latest happenings at the Arosa Bear Sanctuary and the behaviour of the bears. Guests can learn interesting facts at first hand.

"Zappelbär" Hidden Object Game

Children can search for the small bear on the Tschuggen, the nursery slope area by Arosa. The bear should really be asleep by now, but is still quite fidgety ... The young guests have to help the little bear to eat enough food and be ready to sleep. Food and activities are located throughout the Tschuggen area to tire out the little "Zappelbär". Other animals will also tell him how to hibernate properly. The children collect stamps on their skis so that the little "Zappelbär" becomes sleepy and can find his hibernation spot.

Culture in Schanfigg

The Schanfigg valley is known for its preserved culture and traditional settlements. The settlement structure has changed little since the 19th century and, for the most part, – apart from Arosa – retains its agricultural character. The oldest building in Schanfigg, the Lügen church, is from the 11th century and the oldest residences date back to the 17th century. This culture is best discovered with a guided tour or winter walk. We also recommend trying the local specialities at one of the numerous farm shops.

What will it be today? A sumptuous brunch on the sun terrace, a GaultMillau menu or a cosy meal in a cosy parlour? The restaurateurs in and around Arosa will spoil you with local products, a varied selection and a lot of passion for great moments of pleasure. Let yourself be enchanted!

Farm shops

Would you like some "Salsiz" or a cheese mix? The farm shops in the Schanfigg valley are sure to have what you are looking for. Here, along the Schanfiggerstrasse and at individual farms, lovingly prepared food is sold direct from the farm.

We are happy to help you find what you're looking for.
